FINISHERS COMPANY LIMITED

SUPPLIERS OF INDUSTRIAL MACHINES, PARTS, LOGISTICS,
PROVISION OF TECHNICAL & GENERAL ENGINEERING
SERVICES & RENTAL OF EARTH MOVING MACHINES

INTRODUCTION

THE COMPANY AND ITS VALUES

Finishers Company Limited (FCL) is registered under the Republic of Ghana's Companies code number C A-16, 031.The company delivers quality services in areas of civil and building construction, acid proofing and grouting, general surveying, fabrication and structural erection, thermal insulation, corrosion control, general maintenance, supply of engineering materials and labour hire.

Our qualified staff and engineers enable the company to provide one-stop multidiscipline solutions across various projects and industries. As a client of Finishers you are assured of an effective and efficient team that is focused on your job requirements, whatever they may be, and the delivery of quality services and solutions.

As a professional firm we work within relevant and widely accepted international engineering codes and practices such as ISO, ASME, SANS etc. We strive to achieve our client's specifications, requirements and procedures. To this end we make use of the British Standard PRINCE2 (Projects in Controlled Environments) scalable project management methodology. This means that we adjust our work plan and procedures to fit the particular needs of each project. This makes us unique in the industry.

As far as Finishers is concerned TIMELY QUALITY SERVICES, SECURITY AND SAFETY are our first primary concern in each project we undertake.

VISION

Finishers Company Limited is to be leaders in engineering and construction needs in the Energy, Oil & Gas Industry in Ghana.

MISSION

To provide the best engineering and construction needs through adaptation of technology and with experience team of staff whilst ensuring customer satisfaction and fair return on shareholders' equity.

5

Our principal services are in the areas of:

- Construction and Engineering
- General Engineering Services
- Fabrication and Welding
- Maintenance
- Supply of Materials & Equipment for Building, Construction and Engineering

In the fields of:

- Civil and Structural Engineering
- Mechanical Engineering
- Materials Engineering
- Surveying

6

HUMAN RESOURCES

In the pursuance of our vision, we believe in the hiring of highly trained, skilful and knowledgeable persons with proven experience in their various fields of endeavour. Although most construction firms have a high turnover of casual labour, it is our policy to employ the services of a constant team of casual labour. We believe that teamwork promotes synergy. We are always in contact with our most valuable tradesmen and professionals who are dedicated and committed to our company and its projects and are ready to be deployed whenever we have the opportunity to do so. The company also fosters and maintains contact with expatriate experts who have worked with the company in the past. These experts are called in to assist on projects when their expertise and experience are needed.

Our employees are young, energetic and knowledgeable personnel who have worked in various challenging projects and industries in Ghana and other parts of the world.

MANAGEMENT TEAM

The management team comprises young energetic and results-oriented professional persons. Each team member is knowledgeable, skilled and experienced, having previously held one or more positions in the company. Members have qualifications in one of the following engineering areas; Civil, Mechanical, Materials Handling, Purchasing and Supply, Survey and Project Management. These qualifications are additional to their managerial, supervisory and leadership skills. Thus Finishers possesses an excellent team of management staff.

Our core technical team comprises

- Site Manager
- Safety Advisor
- Mechanical Engineer
- Civil/Structure engineer.
- Surveyor
- Craftsmen
- Supply Chain Advisor
- Professional Buyers

7

PRODUCTS

We have an attractive pool of products and services that are delivered with the highest standards of We have an attractive pool of products and services that are delivered with the highest standards of professionalism. These products are grouped under the areas of Engineering/Construction, Supply of Engineering and Safety Materials, Labour Supply and Project Management.

ENGINEERING/CONSTRUCTION

CIVIL ENGINEERING
- Concrete Works
- Culverts
- Drainage Constructions
- Acid Proofing
- Grouting(Tanks, Structural steels and Mechanical Equipment)
- Earthworks

BUILDING DESIGN AND CONSTRUCTION
- General Building Works
- General Painting
- Terrazzo and Tiling
- Chain link Fencing

SURVEYING
- Land and Mine Surveying

FABRICATION AND STRUCTURAL ERECTION
We undertake fabrication and erection of steel structures as below:
- Steel structural works
- Sheeting and cladding
- Plate works
- Piping and its supports
- Ducting, etc.

8

THERMAL INSULATION

We undertake insulation on the following:
•Steel pipes and tanks
•Hot chemical pipes and tanks
•Heaters and HVAC Ducting

CORROSION CONTROL AND PREVENTION

We undertakes site visits to analyse the cause(s) of corrosion (i.e. the environment and design).
Subsequently, we apply the necessary prevention methods and paint coatings. We also undertake sand blasting and painting for new and existing projects.

GENERAL MAINTENANCE AND PLANT INSTALLATIONS

- Periodic and preventive maintenance
- Process plant modifications
- Plant shutdowns
- Revamp plants/projects
- Process plant equipment installations

EQUIPMENT RENTAL

- Excavators
- Backhoe loaders
- Bulldozers
- Graders and other earth moving machine

9

SUPPLY OF ENGINEERING AND SAFETY MATERIALS

We supply engineering and safety materials as below:

- Building materials – e.g. cement, iron rods, etc
- Mining and Industrial consumables – e.g. electrodes, grinding, and cutting discs, marine and oil paints etc.
- Bolts and nuts, etc.
- Pipes and fittings
- Bearings and welding equipment
- Safety equipment – e.g. body harness, PPE of all kinds, safety systems, etc.

10

White Knight
Rust guard
METAL PRIMER

DEWALT

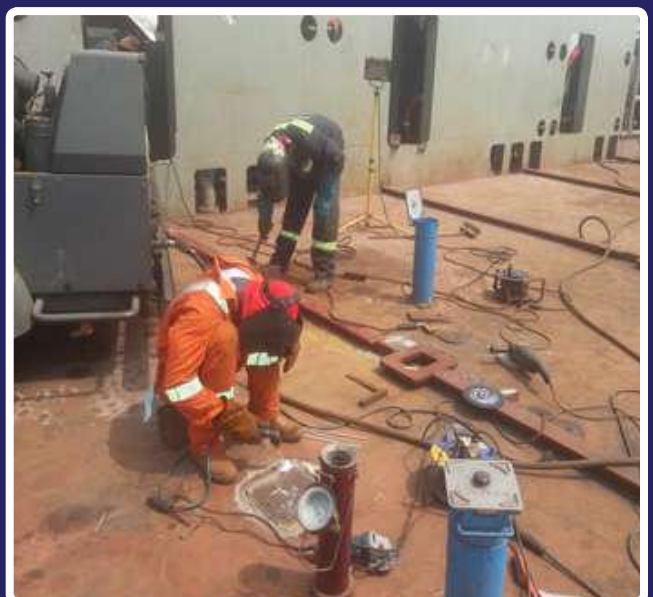

LABOUR SUPPLY

We also supply the under listed types of labour:
•Welders and Fabricators
•Pipe fitters
•Plant Mechanics
•Qualified Land Surveyors
•Masons
•Carpenters
•Corrosion control teams
•All kinds of industrial hoses (air, hydraulic, chemical, discharge and suction, cement hoses etc.)
•Fittings and couplings / swaging serviceiujl

PROJECT MANAGEMENT

Finishers Company handles project planning, execution, monitoring/control and closure. We provide effective and efficient project teams to execute your project on budgeted cost, quality and on schedule. Also, we undertake failure analysis of equipment and plant as well as safety training.

13

Construction of Warehouse for Takoradi Gas Co. Ltd. Foundation stage

Fabrication works of Vessel parts for Schlumberger Seaco. Pacific Aurora

Welding and Installation works on Pacific Aurora vessel for Schlumberger SEAco Inc.

14

Fittings and connectors in storage/stock
